Grupp G:

Kristoffer Frang

Joel Johansson

Maria Krantz

Johan Linåker

Marcus Åkerberg

Project mission

- TLTH
 - Organizational structure
 - Problem description
 - Today's practice
- Requested functionalities
- Type of project

Elicitation

- Elicitation methods
 - Brainstorming
 - Interviews
 - Focus group
 - Stakeholder analysis

Specification

- Specification methods
 - Task descriptions
 - Virtual windows
 - Context diagram
 - Data model
 - Data dictionary
- Result
- Prioritization
- Validation

Learning outcome

- Communication
 - Meet with the customers and stakeholders early on in the project
 - Be well prepared, have motivated questions
 - Coordinate wishes and opinions from different stakeholders
- Consider choice of elicitation methods carefully
- Get an early overview
- Hard to make prioritizations according to cost
- Continual reviewing of the specification, special focus on completeness and consistency.
- Difficulties in changing the requirements, ripple effect
