ARTEFACT SURVEY

(Q1 & Q2) Requirements analysis

i) surplus info from my perspective (e.g. tester, product owner)

ii) incorrect information as I perceive it

iii) marker/pointer to tacit information, e.g. contextual info, details or domain knowledge

(Q3) Test case analysis

i) connect the steps / part of step to requirements info

ii) info in test cases not found in requirements: refinement or additional info (source?)

Q1. For the documented reqs (US nr x & y) relative the agreed scope and requirements	
1a	The doc reqs express ... meaning as the agreed requirements.	___ Exactly the same ___ Almost the same ___ Roughly the same ___ Somewhat similar ___ Very different
1b	The doc reqs specify ... level of details than the agreed requirements	_____ times more / less or ___ Much more ___ Somewhat more ___ The same ___ Somewhat less ___ Much less
1c	The doc reqs cover ... content than the agreed requirements.	_____ times more / less or ___ Much more ___ Somewhat more ___ The same ___ Somewhat less ___ Much less
Q2. For User Stories x & y, the relationship between the implemented behaviour and the agreed requirements.	
2a	The implemented behaviour is ... (similar in meaning) to the agreed requirements.	___ Exactly the same ___ Almost the same ___ Roughly the same ___ Somewhat similar ___ Very different
2b	The implemented behaviour covers ... content than the agreed requirements.	_____ times more / less or ___ Much more ___ Somewhat more ___ The same ___ Somewhat less ___ Much less
Q3. For the documented reqs (US nr x & y) and connected test cases (TCs)	
3a	The TCs express ... meaning as the doc reqs.	___ Exactly the same ___ Almost the same ___ Roughly the same ___ Somewhat similar ___ Very different
3b	The TCs contain ... level of detail than the doc reqs.	_____ times more / less or ___ Much more ___ Somewhat more ___ The same ___ Somewhat less ___ Much less
3c	The TCs cover ... content than the doc reqs.	_____ times more / less or ___ Much more ___ Somewhat more ___ The same ___ Somewhat less ___ Much less
