

Master Thesis at Bombardier

- **Improve our build environment**
 - Analyse build management tools (e.g. CruiseControl, Luntbuild) that fit our needs
 - It should be easy to setup and monitor daily builds
 - Pilot project
- **Improve our use of SCM metrics**
 - How can we benefit from SCM metrics?
 - How can we collect data without disturbing the developers too much?
 - How should we analyse the data?
 - How should we present the result to managers and developers?
- **Contact Henrik or Andreas if you are interested**
 - Take a business card
 - Email is the easiest way to contact us
 - Henrik: henrik.jonsson@se.transport.bombardier.com
 - Andreas: andreas.lundahl@se.transport.bombardier.com
