

Security is Inconvenient

Axel Keskkikangas, Ted Hartzell

2020 Axis Communications AB

www.axis.com

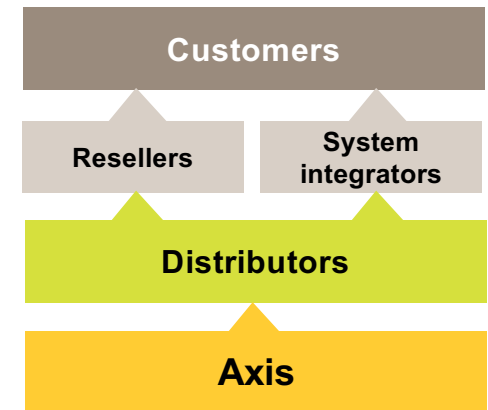

IoT Security

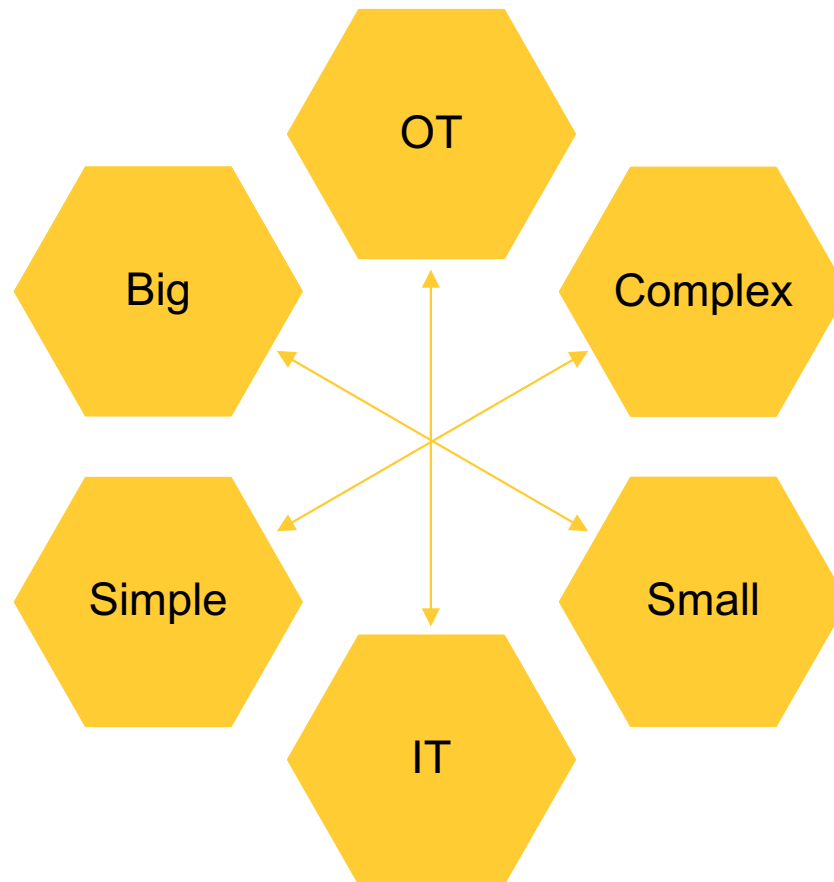

- > Network Security (HTTPS, 802.1x, SRTP, etc)
- > Secure Boot & Signed Firmware
- > Secure Key Storage
- > Software Security Program
- > Responsible vulnerability disclosure program

Problem

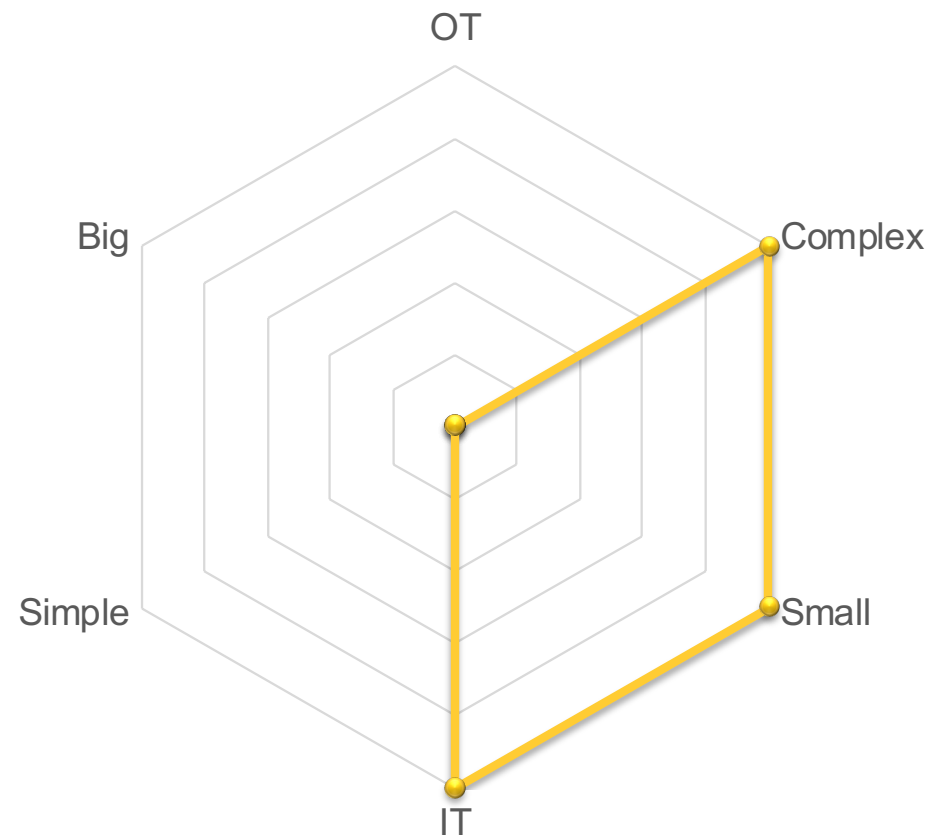

Security configuration is completely at customer discretion

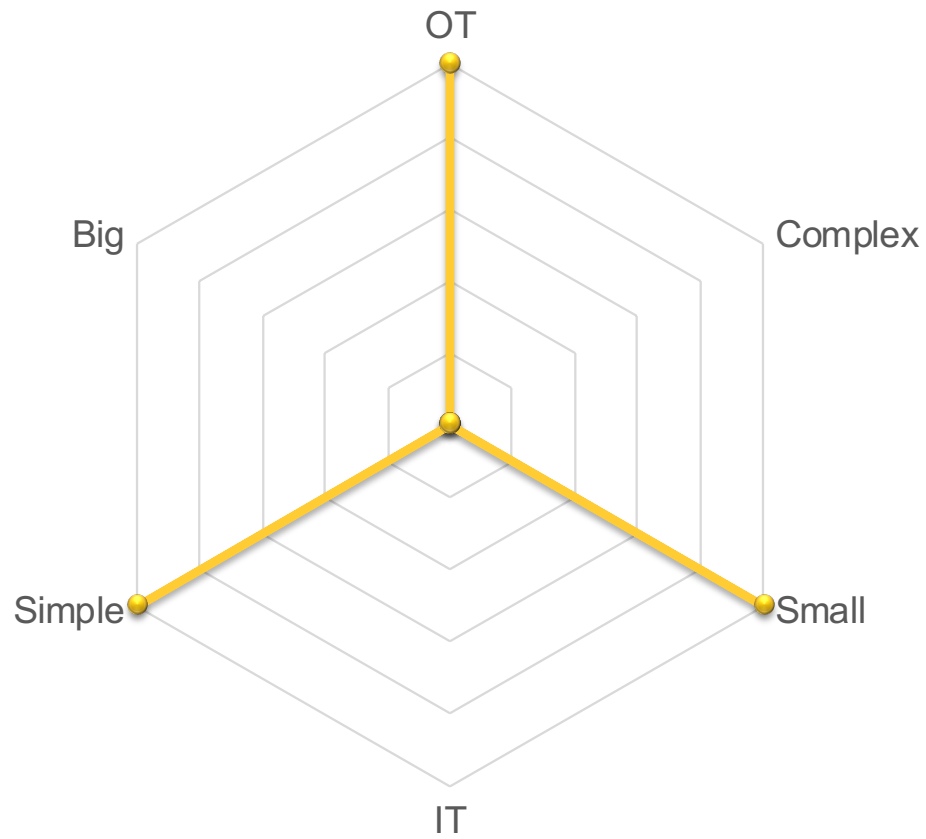

Organizational Scale IoT Security

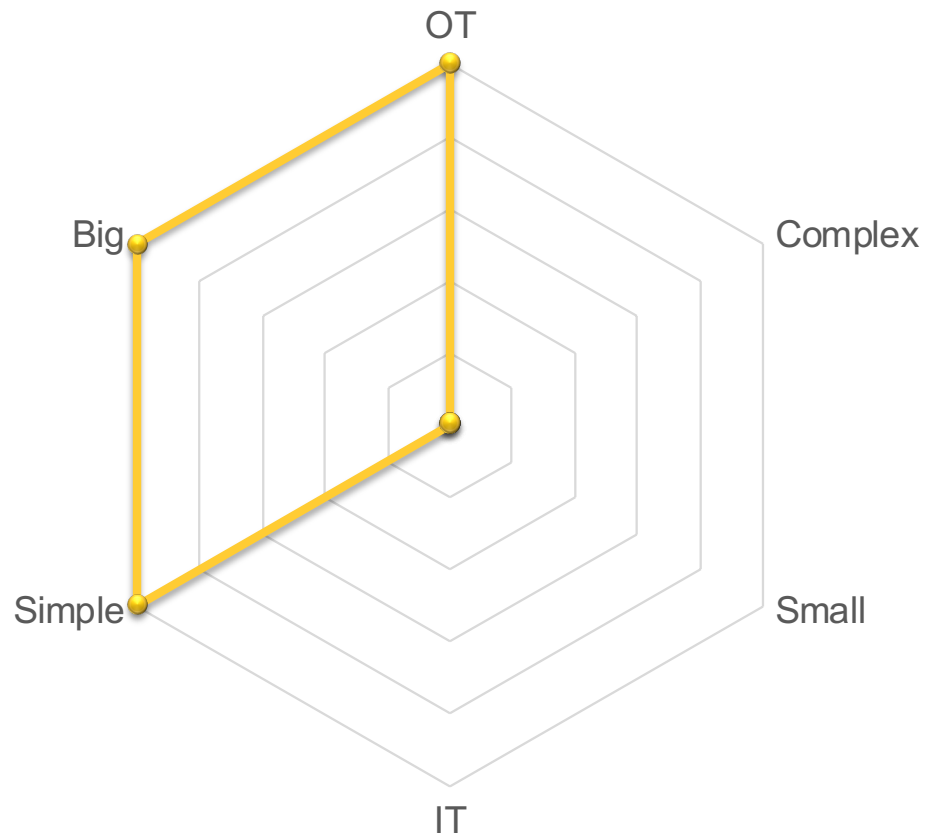

Öresund Bridge

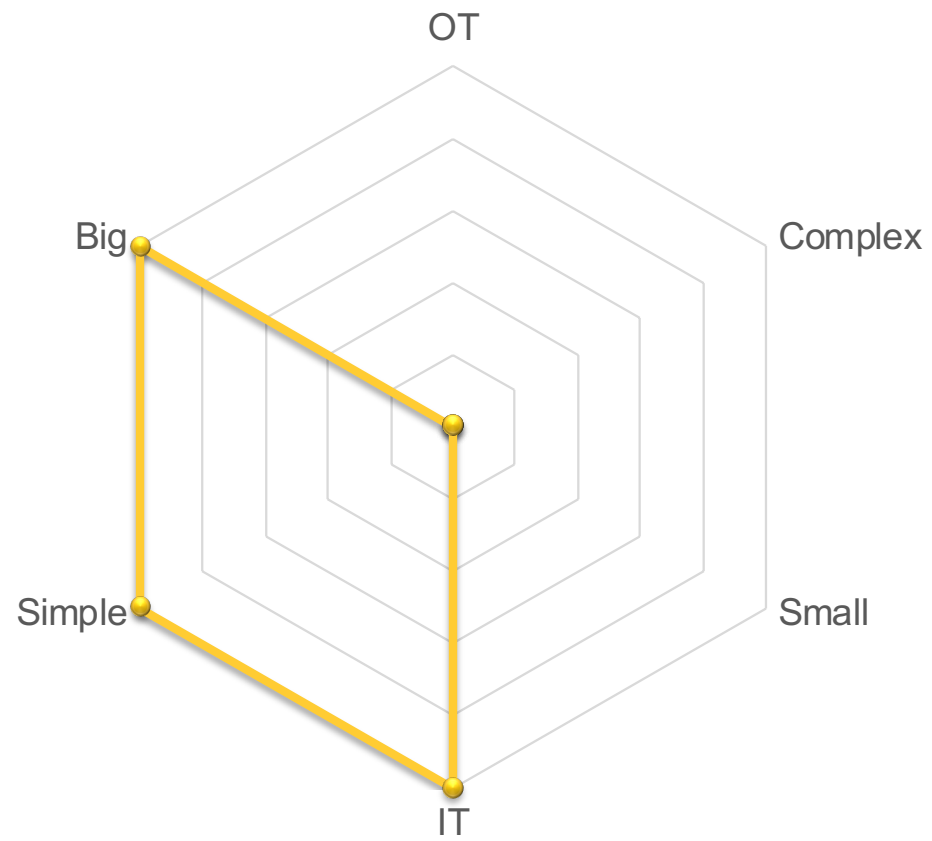

Small Independent Store

Camera for checkbox

Target

How good is the cyber security for one of these systems?
