

Seminar 3: “Bioactive compounds: Mechanisms of actions”

Tuesday 1 December 2009 from 13.00-16.00
At KLP, Auditorium, Edward Thomsens vej 14, 2300 Copenhagen S

Winter School 2009-10: “Bioactive compounds in food”

The Winter School is approved as a PhD-course at DTU (2 ECTS points)

Programme

Time	Subject	Speaker
13.00-13.10	Welcome	Lisbeth Valentin Hansen , Executive advisor, Center for Environment and Toxicology, DHI
13.10-13.50	Discovering bioactive substances in the food chain	Joseph Schwager , Dr., DSM Nutritional Products, Switzerland
13.50-14.30	Plant bioactives for the regulation of metabolism and energy expenditure	Karsten Kristiansen , Prof., University of Copenhagen, Department of Biology, Denmark
14.30-15.00	Coffee/tea & Networking	
15.00-15.40	Cancer-preventive glucosinolates - mechanisms, effects and bioengineering	Barbara Ann Halkier , Prof., University of Copenhagen, Department of Plant Biology and Technology, Denmark
15.40-16.00	Final discussion & summing up	Anders Permin , DVM, Head of department, Center for Environment and Toxicology, DHI

Participation is open for all interested and is free of charge.

Register online on www.oresundfood.org, or contact Mie Bendtsen (mib@oresundfood.org, +4528754092) or Eva Høy Englund (eh@dhigroup.com, +4545169096) **no later than November 25th**. Please cancel if you have registered and cannot make it (before November 27)!

Language will be English unless only Danish speaking participants are present.
