IT

## **Knowledge and contacts for new business opportunities**

Øresund IT provides knowledge and contacts for new business and projects. As a network organization for the Danish and Swedish IT industry in the Øresund Region our mission is to ensure growth in the region by developing and strengthening the IT cluster and make the region even more attractive among companies, researchers, students, employees and investors. We do this by facilitating meeting places in the region, which can result in more innovative solutions, products and world class research.

Our members represent all areas of the IT industry including electronics and telecommunication and we provide them with access to a network, which is unique because it spans across Øresund and therefore offers new opportunities. Seminars, conferences and workshops gather the players in the region and provide new knowledge. Become a part of the important network and strengthen your opportunities for future businesses.

## Membership Benefits

Each year Øresund IT arranges a number of conferences, initiates projects, and creates networks and events on subjects, which are of interest to the IT industry. Along with the value of gaining access to projects across sectors, this is also a unique way for members' employees to develop competences in an informal setting. Furthermore, members get the opportunity to network with the universities by participating in joint projects and thereby are inspired to strengthen R&D activities.

### **As a member you get access to:**

- Networks
- Conferences
- Match Making
- Technology/ Technical briefing
- Human Resources
- Øresund Science Region

It is possible to influence the activities above directly through contact with the staff and by participating in projects, seminars, networks and the Annual Meeting.

## How to become a member

It is possible for both companies and organizations to become members of Øresund IT. The membership application is completed by filling in the application form below and sending it by e-mail to Øresund IT. An online application is also available at [www.oresundit.org](http://www.oresundit.org).

### Membership fee

The membership fee is paid to ØIT's Association for the purpose of supporting Øresund IT. The membership fee is paid every calendar year and has three levels depending on the number of employees – see below.

The membership fee is listed without sales tax and is tax deductible for

Number of employees	Annual fee
1 - 49	6.000 DKK
50 - 249	12.000 DKK
250 +	18.000 DKK

all companies as well as for Danish organizations. Invoices are sent from Lund University. The fee is decided by the members at the Annual Meeting. (International members with no affiliation in Sweden or Denmark can contact us to determine tax deduction).

### Cancellation

Members who wish to cancel their membership have to do so in writing no later than three months before the end of the year. If no other information is received the membership will continue the following year.

Øresund IT

Nørre Voldgade 16

or

Box 117

1358 Copenhagen K

SE 221 00 Lund

## Projects

Øresund IT initiates and manages projects that support our vision of making the Øresund region the leading Scandinavian ICT cluster. Our projects gather participants from industry, academia and the public sector. Often they cut across disciplines to find new ways to incorporate IT in our daily life.

The projects vary from marketing cooperation, gathering and disseminating information on subjects of importance for regional stakeholders to projects within research and development. As a member you can initiate a project in cooperation with us and benefit from the Øresund IT network.

## Members of Øresund IT
